

Publish Performance test result report

Performance report

`**/target/jmeter-results*.jtl`

Specify the path to the Performance report files, relative to the [workspace root](#).

- If you left this field blank the plugin will look for files matching the pattern: `**/*.jtl` in the workspace.
- Or you can enclose the search specifying a list of files and folders separated by semicolon.
- Or use an Ant Fileset pattern.

Performance threshold

Unstable

Failed

Thresholds:

10

%

25

%

Specify the error percentage threshold that set the build unstable or failed (a value of 0 means: dont use this threshold).
