

☒ Build other projects 

Projects to build

phoenix-integration-tests

☐ Trigger even if the build is unstable

☒ Archive the artifacts 

Files to archive

**/*.war 

Advanced...

☐ Aggregate downstream test results 

☒ Record fingerprints of files to track usage 

Files to fingerprint

Can use wildcards like 'module/dist/**/*.zip'. See the [@includes of Ant fileset](#) for the exact format. The base directory is [the workspace](#).

☒ Fingerprint all archived artifacts

☐ Keep the build logs of dependencies
